

LE MONDE À L'ENVERS

Dans le monde à l'envers, tout est différent ou presque.
Voici un jeu connu de tous, mais entièrement repensé.

Trax basketball

Material

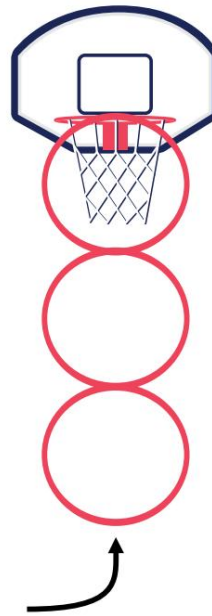

- 6 hoops and adhesive tape
- Physitubes (large cylinders)
- 4 crates of milk or 4 boxes
- 2 basketball hoops
- 6 basketballs

Preparation

- Divide the students into teams of 3 players.
- Suspend 3 hoops attached with tape over each of the basketball hoops.
- Place the physitubes and crates around the field.

Explanation

- The teams are all in action at the same time without competing with each other.
Each player tries to score as many points as possible by throwing at the various targets.
- After a set time, count the points. Each target awards points according to the level of difficulty.
- On the 2nd attempt, the teams try to beat their record.

1 point
Physitube

2 points
Crate or box

3 points
Hoop

Why does it work?

- All players are in action at the same time.
- The difference in height and size of the targets allows everyone to make a living from success.
